Donald Mc Carthy  
Managing Director

“ We always overestimate the change that will occur in the next two years and underestimate the change that will occur in the next ten. Don't let yourself be lulled into inaction.

## Welcome Note

**W**elcome to IDS Technologies, where we take you safety and security seriously using the latest technology and equipment available. IDS Technologies was founded in 2001, and over the years we have been providing “State of the art” video surveillance, access control and alarm technology to the market successfully completing many projects.

Our company is responsible for maintenance and installations in the security industry offering rental options on all our equipment and products. With our infra-structure, we feel that our company is in a position to maintain electronic equipment anywhere in the Republic of South Africa and our neighbouring countries.

IDS Technologies is a level 4 BBEEE contributor and adheres to all SABS Standards for all of our installations.

We strive to provide the highest levels of technical and product support to our customers.
